Objective

To present the current state of the project to the Teaching Assistant, Madeline Janecek, receive feedback, and plan for final refinements before Progress Report 2.

Discussion Summary

- The team demonstrated key features of the platform, including the AI chatbot, template interactivity, authentication flow, resume editing, and pricing toggle with Stripe integration.
- TA reviewed the progress and complimented the team on overall functionality and presentation flow, noting good team coordination and technical depth.
- Suggestions were given to polish areas such as UI consistency across pages, especially the transition effects between components and responsiveness on mobile devices.

- She emphasized that user experience should remain smooth and intuitive throughout, and encouraged the team to add tooltips or small guides where interactions may not be immediately obvious.

- The TA also reminded the team to finalize deployment plans early and test on a live environment before final submission to avoid last-minute issues.

Decisions Made

- UI refinements and responsiveness adjustments will be completed by March 21.

- The team will implement simple tooltips/guides for resume editing and chatbot usage areas.

- Hosting and deployment setup will begin , with staging URLs to be tested.

Conclusion

The meeting was productive and encouraging. With helpful feedback from TA , the team has a clear direction for the final stretch. Focus will now shift to polish, deployment, and QA before the final project report.
